BROCK SOLID STORAGE
Large "obround" manhole for easy entry and exit.

Giant 39-inch (991-mm) fill hole.

BROCK SHUR-STEP® Bin Stairs – another reason more people are making their next bin Brock!

**MOUNTS ON ANY BROCK® BIN 15 FEET (4.6 M) IN DIAMETER OR MORE**

Do you want to check the condition of stored grain and roof-mounted equipment without climbing a ladder? Now you can have the convenience and advantages of a stairs on your grain bin with the BROCK SHUR-STEP® Bin Stairs.

Manufactured from tough, galvanized steel for all Brock grain storage bins, the SHUR-STEP® Stairs also fits many other 15-foot (4.6-m) diameter or greater bins having 9-3/8-inch (238-mm) horizontal bolt spacing and 2.67-in. (68-mm) or 4.0-in. (102-mm) corrugation.

Brock’s stairway follows the wall contour of the bin and can be installed while the bin is being erected or added later. Stairs can be mounted to go either to the right or left around the bin.
